KEY ASPECTS OF NATURAL LAW

1. Love & Truth are synonymous terms.
2. Authority is an illusion and will always lead to slavery. Natural law is not man-made. No person or entity should infringe on another's rights.
3. Fear is an illusion and will keep you permanently imprisoned if the illusion is not recognized.
4. There are immutable karmic consequences to not following Natural Law.
5. Each adult person is responsible and accountable for self.
6. **We are sacred, divine, eternal** energy having a human experience and must **embody our divine masculine and feminine** with authenticity and balance.
7. **Trying to escape** or avoid Love/Truth will always lead to suffering.
8. We are **collectively manifesting** our reality. We must collectively **oppose evil**.
9. **Do not lie** to yourself or others. Lying to others is stealing their ability to discern the Truth and **never steal** anything from another, including property, physical well-being, and sexual contact.
10. **Never harm or commit an act of violence** against another. Self-defense is not violence.
11. **Your Inherent Rights** (to live freely as long as you are not in violation of Natural Law) are never to be surrendered or should never be allowed to be taken away by any person or entity.
12. **Learn and unlearn what is necessary** using methodologies like the Trivium and the foundational Hermetic Principles as a guide.
13. **Research etymology and symbols** to further your understanding of the world and control systems around you.
14. **Understand the real law of attraction** and do the Great Work. Do what is right and abandon moral relativism.
15. You are **Divine By Design** and this must be recognized, embraced, and acted upon. "To know and not to act is not to know." - Wang Yangming

What is an Inherent Right?

- An inherent right (a Natural Right) is a right you are entitled to just because you exist. It can't be taken away or given up.
- Inherent rights are just a natural part of being a human on this planet. No permission or authority can grant or take away inherent rights.
- All property rights are inherent rights. This includes physical property, physical well-being, sexual contact, and your right to exert your Free Will based on Truth.
- Your inherent rights are God-Given and have nothing to do with government or man-made laws.

Lysander Spooner
QUOTE

"**A man's natural rights are his own, against the whole world**; and any infringement of them is equally a crime, whether committed by one man, or by millions; whether committed by one man, calling himself a robber, (or by any other name indicating his true character,) or by millions, calling themselves a government."

What Are The Threats To Our Inherent Rights?

The Primary Threats To Our Inherent Rights Include:

- Continued Willful Ignorance
- A False Belief in Authority
- Lack of Self-Accountability and Responsibility
- Fear-Based Beliefs and Lack of Courage

Let's Look At Each of These More Closely...

What is Willful Ignorance?

- Willful ignorance occurs when individuals willingly accept falsities in lieu of educating themselves even though True information is visible, accessible, and/or easily uncovered.
- This is different than nescience. Nescience is ignorance resulting from an inability to access factual and True information.
- Even when at some conscious level a person realizes their beliefs are false, they continue to hold onto them and act upon those same falsities.

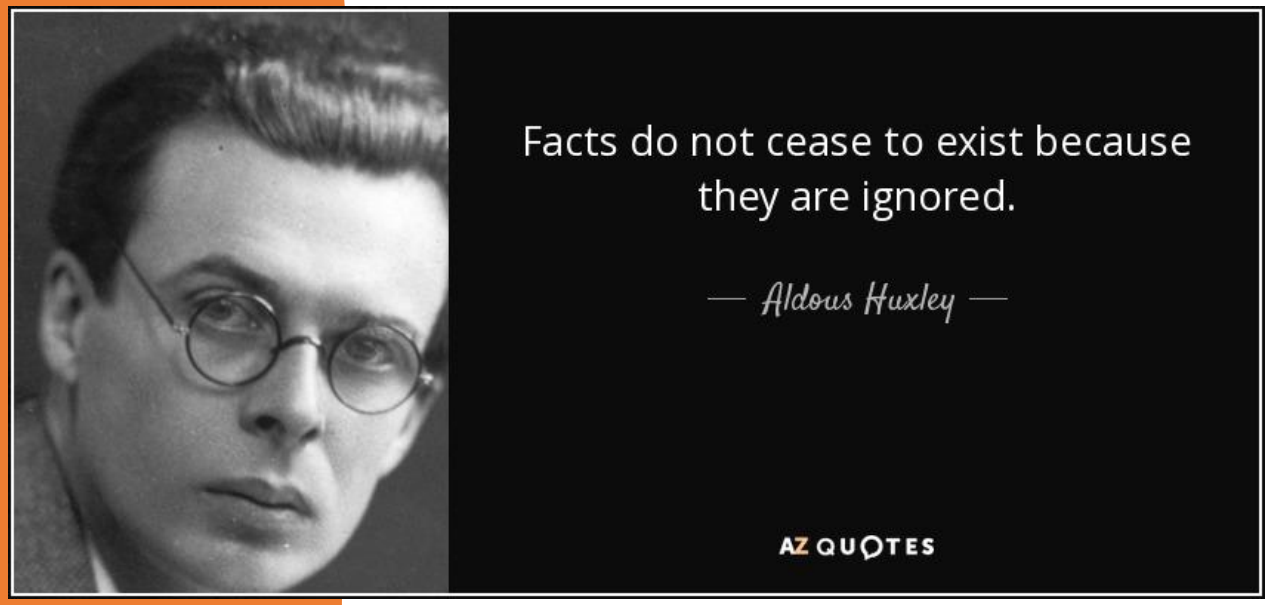
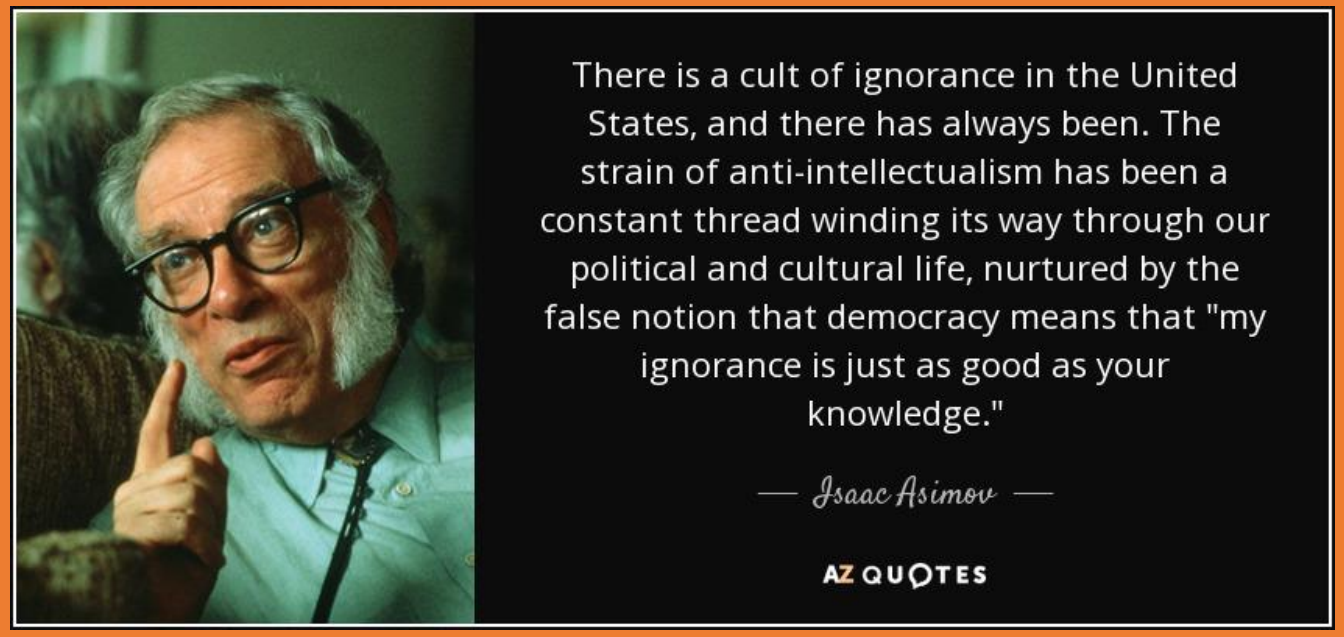
Willful Ignorance is dangerous. It may be our GREATEST THREAT.





Remaining blind in the face of **TRUTH** does not serve you in any productive way. The **TRUTH** always remains whether you ***choose*** to acknowledge it or not.

Examining The Belief In False Authority

Our False Belief In Authority Is Systematically Destroying Us

- All persons are inherently EQUAL IN RIGHTS so how can one person justifiably act in authority over another?

- The very concept of authority violates Natural Law. Authority results in the enslavement of the majority, unquestioning order-following, and tyrannical rule by the few.

- It is only our belief in authority that sustains it. It does not exist independently in Nature. Authority negates the concept of equality.

Authority directly leads to a Master-Slave relationship.

Once we release our belief in, and for many the desire for, a ruling class, we can begin to fully stand in our FREEDOM and SOVEREIGNTY.

Lack Of Self-Accountability & Responsibility

Without Self-Accountability and Responsibility Real Freedom Is No More Than a Fantasy

- **When you depend upon another to take care of you, that comes at an enormous cost to your personal freedom. Your "need" and unwillingness to care for self puts them in a position of power over you.**

- **When you choose to take responsibility for your life, choices, and actions, you are standing in your sovereignty.**

- **Acceptance of Truth, Personal Responsibility, and Self-Accountability put you in alignment with the Laws of the Universe and Natural Law.**

What is Self-Accountability & Responsibility?

SELF-RESPONSIBILITY:

- Responsibility is the opportunity or ability to act independently and make decisions without authorization. It is the act of taking control of self.

SELF-ACCOUNTABILITY:

- Self-accountability is taking responsibility for your actions and behaviors without blaming others. It means you're fulfilling your obligations, tasks, and goals without excuses.

We will continue to suffer the brutal consequences of abdicating our responsibilities until we change our mindset and CHANGE OUR WAYS.

Examining Fear-Based Beliefs

Fear-Based Beliefs Can Only Lead To Fear-Based Actions

- Fear comes from the lack of knowledge and a state of ignorance.
- If you don't understand Self or the world around you, fear will fiercely and relentlessly ensue.
- The cure for fear is KNOWLEDGE and WISDOM.

When you fully understand your TRUE NATURE and the LAWS OF THE UNIVERSE, you quickly recognize that fear is a grand illusion.

Examples of Fear-Based Beliefs

- The belief in religion (this includes the religions of money and authority)
- The belief that we have no control over our lives
- The belief that we are not powerful creators
- The belief that you are not enough
- The belief that you know all there is to know
- The belief in moral relativism

Does Giving Up Our Rights Violate Natural Law?

YES, IT DOES!

- When you give up your Rights and Freedom, it is absolutely a violation of Natural Law. It also makes the entire human collective vulnerable to abuse, extortion, violence, and corruption.
- You will never find the peace and solace you seek by shirking your responsibilities.
- Our purpose here is to learn, grown and evolve. This requires responsibility and accountability.
- Living outside of Natural Law allows evil to run rampant and harms the entire collective.

Why Do People Give Up Their Rights Voluntarily?

These are just some of the reasons people willingly give up their rights…

- The illusion of safety (false flag events, scarcity, violence, etc)
- The desire for money (competition for resources)
- Programming, manipulation, and mind control
- Fear-based decision making (Ex. Signing up for government programs that require you to relinquish rights in return)
- The desire to be controlled (so they don't have to take personal responsibility)
- Brain damage due to a poisonous food and environment

Our current situation is ON US. Yes, we have been manipulated but we still have to own our choices and actions.

Why Is It Important To Stand Up For Your Rights?

Standing in Freedom & Sovereignty brings you into harmony with the Universal Laws that govern this realm and leads to the end of unnecessary suffering.

If we want to find peace, balance, and real community, we have to stand up against the powers that shouldn't be and embrace our inherent rights.
